

# HouseSigns

Custom Made • Gift Certificates • Select from our Impressive Styles

Many years ago instead of using numbers, our post was delivered by the occupant's name or house name. As many people migrated to Australia they brought with them their old house name or named their new house after the town or city they came from. Today the tradition still continues, as you can't take a house with you when you move, but you can always take the name!

At Lotza Signs we pride ourselves on delivering to you a product that we are proud to have mounted on our own home. We custom make each house sign to ensure it looks in proportion to your name and we only use the highest quality products to ensure longevity.

We offer you the choice of three styles – Classic, Polished Edge or Bevelled Edge. We also have Gift Certificates for the person who has everything!
